Summary

I am a Java Backend Developer actively expanding my knowledge and skills. I have a solid foundation in Spring Boot, REST APIs, and database management. Currently, I am participating in the Practicum program at PDP Academy, working on real-world projects. I constantly strive to improve my expertise, fill knowledge gaps, and never stop learning. Writing clean, efficient code and solving complex problems motivate me, and I am eager to grow in backend technologies, microservices, and cloud computing.

Education

Foundation in C++ Programming, PDP Academy	10/2023 – 12/2023 Tashkent, Uzbekistan
Java Backend Development, PDP Academy	04/2024 – 03/2025 Tashkent, Uzbekistan

Skills

- Java (Core, OOP, Collections, Multithreading)
- JPA, Hibernate (ORM)
- RESTful API Development
- Swagger API
- Java SE, Java EE
- Docker
- Telegram Bot API
- Maven
- Apache Tomcat
- Spring Framework (Spring MVC, Spring Boot, Spring Security)
- JDBC
- Microservices Architecture
- PostgreSQL, MySQL, Oracle | MongoDB (Familiar)
- Git, GitHub, GitLab
- Amazon Web Services (AWS)
- SOLID Principles
- HTML, CSS, JavaScript (Basic understanding)

Languages

Uzbek Native	English Elementary (Intensively preparing for IELTS)	Russian Beginner
------------------------	--	----------------------------

Certificates

- Foundation (C++) Certificate - PDP Academy 
- Network Security Fundamentals Certificate - KOICA and IT Park 
- Database Analysis & Design Certificate - KOICA and IT Park 

Interests

- Software Architecture
- Chess
- Continuous Learning
- Open Source Contribution
- Reading Tech Articles and Books
- Tech Blogging
- Problem Solving and Algorithms
